“Bing-Bong” Morning Campers, another excellent turnout today from 28 fine Anglers. **THANK YOU** to all of you for being so patient with the new “System” we tried today to ensure that we all stay safe during this current Pandemic.

I think a lot of people were quite happy to turn-up and draw their pegs straight away, it gave the more senior chaps more time to set up and then have a Chin-wag and drink their Sanatogen” with their fellow anglers on the next peg whilst keeping more than 2 meters apart.

Mind you – in the fishing hut, we were all looking like a graceful swan with its pristine white feathered body gliding serenely along the lake but the legs were going like the clapper’s underneath.

Yours Truly, **Steve “Einstein” Bennett, “Nobel Peace Prize” Alan** and the best scientific brains in Europe were trying to work out the pegging system where we didn’t have 23 Anglers in one section and 1 in another... well done lads, it will get better....eventually

This is why the world needs to find a cure for this “Pants” disease otherwise, we in the fishing hut will turn Ferrell and start eating all if the trout pellets which will greatly annoy our fellow fishermen
